MADIN BLOCH

BACKEND DEVELOPER | PHP & LARAVEL | ERP INTEGRATIONS

Ahmedabad, India (remote / relocation) | +91 9510299312 | madinkhan0633@gmail.com
madin-bloch.vercel.app | github.com/MadinBloch | linkedin.com/in/madin-bloch

PROFESSIONAL SUMMARY

Backend developer building production Laravel applications since December 2024. Experience in REST/Frappe ERP integrations, finance and travel workflows, scheduled DBF exports, queued email campaigns, AWS S3 operations and production debugging.

TECHNICAL SKILLS

Backend: PHP, Laravel, REST APIs, Eloquent, Guzzle, Queues, Scheduler, Frappe ERP APIs
Databases: MySQL, MongoDB, PostgreSQL | Infrastructure: AWS S3, AWS SES, EC2, Docker, Nginx, Linux, PHP-FPM, SSL, Git
Supporting: Excel/DBF processing, Blade, Livewire, React (working knowledge)

PROFESSIONAL EXPERIENCE

Laravel Developer | Shine Infosoft, Ahmedabad May 2025 - Present

- Designed and extended ERP/DBF export workflows across booking, receipt, passenger, supplier, billing, forex and cash-contra records, including scheduled publishing, S3 staging/archive and export logs.
- Built cash-contra requisitions and extended Journal Voucher workflows with Sales Manager and Finance approvals, role restrictions, notifications and ERP exports.
- Enhanced air quotation/ticketing, booking, billing, insurance and multi-currency flows; introduced a reusable Frappe/ERP API client and operational log tooling.
- Automated RFQ alerts, follow-up reminders and ticket-stock checks with scheduled Artisan commands.
- Improved a production page’s observed load time from approximately 15s to 3s through backend optimization.
- Supported deployments and troubleshooting with Docker, Nginx, PHP-FPM, SSL and AWS EC2.

PHP Developer | Magecurious, Ahmedabad Dec 2024 - May 2025

- Contributed PHP features and issue fixes to live development assignments, collaborating with senior engineers.

SELECTED PROJECT | BULK EMAIL CAMPAIGN ENGINE

Laravel 11, MySQL, Queues, Scheduler, Excel, Mail

- Introduced an Excel-driven email campaign module with recipient validation, HTML templates, test sends, queued delivery, scheduler dispatch and pause/resume controls.
- Implemented open tracking, hourly file-to-database batch processing, recipient exports, campaign archiving and configurable sender/reply-to identities.

EDUCATION & RECOGNITION

MCA - Master of Computer Applications (final year, pursuing) | BCA - Completed
Git & Docker Workshop Facilitator - Dr. Subhash University (Aug 2026)
Grand Finalist - New India Vibrant Hackathon, PDEU (2023)
